DIGITAL VIDEO COACH

The most cost-effective Statistical and Video Analysis system.

DV Coach is recognised as being a world leader in the field of sports analysis. From professional teams to club level and even high school sports, DV Coach can be tailored to meet your needs.

All coaches have long recognized the value of video analysis and statistics as important coaching tools. DV Coach provides both of these features. At the game data entry and statistical reporting facilities provide coaches with instant access to statistical information at any time during a game. After the game, the video editing features allow a coach to sort and review the game video nearly instantly, without any of the time consuming rewinding or fast-forwarding of video tape.

Fully Integrated Stats & Video

Every statistic logged is automatically referenced for instant viewing! No more waiting for results!

A Version to Suit Your Needs

DV Coach has a wide range of configurations available to fit your specific circumstances and budget.

Desktop or Portable Options

A system can be tailored to fit how and where you want to use it, whether it be in your office, in the team room, at home or even on the practice floor.

Create Player/Highlight Videos

The system can be used to create cut-up videos that can be placed on video tape, CD or even DVD. With this feature your program can maintain individual player videos and/or you can give personalized coaching or scouting footage to individual players for them to watch later, in the format that suits them best.

Flexibility & Modularity

Different coaches have different philosophies and methodologies. DV Coach is highly flexible, such that reports, key statistics tracked, and even the look of the interface can be changed to suit your coaching style or philosophy.

CyberSports™ Interfacing - Exclusive

DV Coach is the ONLY system that has a direct interface to the world class CyberSports™ software. Any game file can be imported for immediate video analysis and reporting.

Configurable Data Entry Options

For operator comfort, DV Coach offers a range of data entry options, ranging from mouse, touch pad, customized keyboard entry or even voice!

Available For Your Sport

We have versions that are specifically configured to cater for your sport, including basketball, soccer, baseball, football, tennis, softball, netball etc.

Select your DV Format

Capture your footage to MPEG1, MPEG2 or DV-AVI formats depending on your requirements. You can also mark your stats while capturing the footage - live or back office - saving you time and giving your players feedback sooner.

Share Your Video & Stats

DV Coach can be linked by a network. This means your coaches, staff and players will have on-line stats & video on demand!

Total Video Control

Our system has all the functions you would expect with digital editing such as instant goto's, frame by frame, slo-mo, fast shuttle, reverse and even more!

Remote Transfer Options

DV Coach will allow you to send secured data over the internet so you can interchange data with your coaches and scouts.

16 years and still going strong!

The DV Coach system has been around since 1985 and was developed in conjunction with sports professionals, coaches, and statisticians. We rightfully claim to be one of the pioneers in this industry.

Features and Highlights

Pre-Game Preparation

- View prior games and scout opposition strengths & weaknesses
- Create your own player highlights footage
- Create edits for practice and individual workouts
- Create opponent highlight tapes for your players to study
- Use voice dubbing to put your own coach's comments on the footage
- Print player/team report cards & head to head edge reports
- Quickly and easily prepare a video highlights package for team meetings
- Prepare motivational highlight video footage with special effects

At Match Usage (Live)

- Produce instant game stats (one game or multiple games)
- Comprehensive match & media reports
- Replay video highlights at any stage of logged events
- Log your own set plays that can be linked to video footage to replay at any stage, including success/failure indicators.
- Record the opposition set plays and strategies. Program your own team rules or "coaching comments" for reference

Player Development

- Evaluate team and individual players
- Use coach's voice to guide players through the video edit
- Create customized player programs
- Set goals and revise on regular basis
- Create pre-season training videos and digital playbooks
- Keep the season on-line for the players & coaches to review

- Keep a progressive report card (stats & video) on potential recruits

Adaptable to your sport

- Basketball
- Tennis
- Football
- Soccer
- Rugby Union
- Rugby League
- Baseball
- Volleyball
- Netball
- Hockey
- Table Tennis
- Cricket

And more...

NEW - DV Coach Handheld

ProWess is leading the way in using PDA's & WAP technology with a unique scouting tool that will revolutionize the way events are logged for statistics and video editing.

Sample Setup

Testimonials

"DV Coach has allowed us to analyse our performance in such detail and so quickly that it has given us more scope for improvement and this has reflected our team's results on the court. It is portable, fast, easy to use and the most cost-effective system of this type I have seen!"

Brian Gorjian - Australian & Sydney Kings Head Coach
(NBL Playoff finalists 2002)

"No other system has been able to provide us the level of sophistication and flexibility of DV Coach. It has helped the development of our players immensely and has given our team the strategic edge we have been looking for and all at price that we could afford!"

Ross Monaghan - Team Manager, Calder Cannons Football Club
(VSFL U18 Premiers 2002)

"DV Coach allows us to record and analyse events instantly. Coaches access DV footage and stats over a network, during play, to give the players immediate feedback. The players then know what aspects of their

game to focus on each time they walk on the field. DV Coach keeps us on top of our game!"

Garfield Smith - Head Statistician, West Indies Cricket Team

"DV Coach has changed our method of analysis by providing quality stats and video to our coaches and players much quicker than ever before. Apart from being so powerful and flexible, it's portability and ease of use has been great when we were on the road. It should be standard issue for any professional coach!"

Gordon McCleod - Head Coach, West Sydney Razorbacks
(NBL Grand finalist 2002)

"After a widespread evaluation of all options available, we found this system the most suitable for our purposes. It is now extensively used by our coaches, players and statisticians for video and statistical analysis. We have found it a comprehensive, accurate and reliable product. It has become a integral strategic tool at our football club."

Phil Wingate - Information Manager, Hawthorn Football Club
(AFL finalists 2002)

Coach Enquiry

- An invaluable tool used by coaching staff during a match which provides comprehensive feedback based on the data recorded by statisticians.
- Print a range of standard or specially designed reports instantly.
- A number of views show the data organised in different ways, each emphasising a particular aspect of interest.
- A fantastic new optional feature is the electronic whiteboard, which allows you to record all positional moves accurately and efficiently while the game is in progress.
- Concentrate on a particular period of the match (eg. 1st qtr, 2nd qtr, etc.) and watch how the data changes with time.
- Data can be imported from statistics generated yourself using DV Coach, with statistics and codes designed for your own use, or you can link it to a bureau service that records data on all teams.
- The monitor is connected via a simple local area network to the data recorded on other computers on the network.
- Once the query has been generated, simply print the results on the screen or have specifically designed reports printed.

Player	Team	Goals	Assists	Minutes	Rating
John Smith	Team A	2	1	90	8.5
Jane Doe	Team B	1	2	85	7.8
Mike Johnson	Team A	0	3	90	7.2
Sarah Lee	Team B	1	1	80	8.1
David Brown	Team A	0	2	90	7.5
Emily White	Team B	0	1	75	6.9
Chris Green	Team A	1	0	88	7.3
Alice Black	Team B	0	2	82	7.6
Tom Red	Team A	0	1	90	7.1
Laura Blue	Team B	1	1	85	7.4

Coaching Enquiry Monitor

New Electronic Whiteboard Option

This new and exciting feature will ultimately replace the magnetic whiteboard and allow the coaching staff to get accurate feedback on the positional moves made during a game. Features include:

- Quick screen print of content positions
- Fixed or floating playing positions
- Stats displayed by quarter/match
- Exact stats displayed for current match up
- Print detailed reports on all the moves made during the game

Rank/Compare Players Easily

With a click of the mouse, select a player from the menu and his stats can be displayed ranked either against the whole team or directly compared to an opposition player.

Data always up to date

The data recorded is updated at designated intervals from the data entry computers. This interval can be easily set to suit your preferences. Data is also automatically refreshed when you change a view.

Key Performance Indicators

You can set a specific performance indicators that will prompt you during the course of a game. The coaching staff will have prompt feedback on how their players are really going.

Many Different Views

By Selecting a speedbutton you can select a specific view such as:

- Player detailed stats profile
- Player match ups
- Player rankings for a selected stat category
- Group match ups (by category)

NEW - StatsSpeak option available

StatsSpeak is new voice recognition option for DV Coach that will revolutionise the way you record stats.

- No more keyboard/mouse entry is required
- Allows you to log events in a fraction of the time with greater accuracy
- Record any coaching notes against events
- Easy to configure and train anybody's voice in 10 minutes
- Ideal scouting & strategic tool for coaches and scouts
- Use at the game or back-office
- Allows you to "keep your eye on the ball !!"
